this subject. The private friend of General Quitman-name not given-to whom he wrote, knew as well Douglas' position as Quitman, il e were informed at all. The Ilon. Jeff. It would be better for Douglas, perhaps, if he had followed the fashion, and changed two or three times in the last dozen years. Facility in changing has come to be a great merit. Douglas is rather faulty in this respect, as his enemies have emonstrated. For his benefit, we intend to show, before the Charleston Convention meets hat he is not entirely deficient in the capacit; or the act of changing; but if he were equal to his opponents in this responsincluding the editor of the Journal, he would change two or three times before the 20d of April next.

What short memories all these Opposi onists have! They are struck with horror at he Democrats who assert that the election of Seward to the Presidency would be a sufficient cause to dissolve the Union. They have forgotten that Mr. Fillmore said, iu 1856, in a oublic speech, that the South would not and ught not to aubmit to the election of Fremont, and that they all voted for Mr. Fillmore for Will the Journal publish that speech of Mr. Fillmore, or must we publish it or the information of the brethren? Let them road what Mr. Fillmore said, and recollect that hey voted for him for President. Then see if hey can look each other in the face and denounce outhern Democrats as disnnionists, for speaking even less decidedly than did Fillmore.

The Black Republicans are by no means united on a candidate for the Presideney. The indications are that the vote of Illinois, in the Chicago Convention, will be cast or Hon. EDITORIAL BORES.—There is a class people who seem to consider that an editor' time is so much the public property that they are at liberty to engross as much of it as suiferance will permit. They drop in, overhaul the exchanges, scatter and mix them, pull ou your private memorandums and papers from the pigeon-holes in your desk, advance pro found opinions on political and social ethics disclosing an accumulation of ignorance an self-conceit beyond belief to those who hav not heard them. They seem to suppose the the editor must wait for the leading journs while they peruse it—the compositors all the time waiting for copy. If you happen to be out, the bore selects such papers as take his fancy-and they are generally the most valu able and carries them off. You enter your office, seat yourself on the editorial tripod (our chair has but three legs), look for your exchange from which to clip a horrid mnrde or a spicy on dit-it is gone. That blasted bore has been round, you say, and if anathe mas could waken him to a knowledge of hi diabolically self-complacent and detestable ndition, he would drown or hang himself, o both if necessary, to end his worthless exist ence. Il matters not how many placards yo put up on the door-"no admittance except o business." The bores' business is to bore you and they accomplish it. No matter how many staring placards you paste over your desk-"hands off these papers"—the bore assist himself to any and all things he fancies h wants. He may be a silent or a talking bore an old or a young bore, a friend or a secre enemy-he is nevertheless a bore. No gentle man invades the private apartment of anothe gentleman, unless on invitation, or to transact some especial business; which, accomplished he takes his leave.

If one of these bores happens in, and accept the gray eyes, and had a full upper set of articles always in the interest of articles always in the interest of articles. one is always in, the junior hesitates to read an article, the policy of publishing which is doubtful, to the senior, both because he don't fancy being the subject of the bore's tattling outside, or the object of his criticisms. Why don't the bore subscribe for the papers he wants? Will not some one introduce a bill into the Legislature offering rewards for the scalpof bores? The breed would subside-hid their diminished heads and be seen no more Now, we are glad to see any gentleman wh has information to impart, who is friendly and drops in for a few moments, and goes when his business is ended. But, from the bores "good Lord deliver us." Here is another sort who the Mitchell train on the Louisville, New Al-"must see the editor." Hoor SEIRTS. John M. Robinson & Co. are now manufacturing a large stock for the Spring trade. Their Skirts have attained great popularity, as they use only the very est tempered watch spring steel, and each koop is fastened to the tapes by means of a ven loop instead of the ordinary clasp. Thus effectually preventing the annoyance of the tapes being constantly cut. Their skirts can be had at all the retail houses throughout the South and West. Sold only at wholesale.

The great clothing house of J. M. Armstrong, on Main street, opposite the National Hotel, is now being replenished with an elegant stock of men and boys' clothing for the present season. McCleary, on the ortheast corner of Fourth and Main streets. | ON AND AFTER M His large manufactory enables him to supply runks, valises, bonnet and hat boxes, carpet bags, bureau trunks, etc., of the very best nality, at unprecedented low prices. All of Mr. McCleary's work is beautiful as well as durable goods. Give him a call.

Look to Your Interests. The people are aware that D. O'Hare, No. 427 Main street, is the oldest, largest and most experienced manufacturer of trunks and similar articles in the city. They should avail themselves of the rare opportunities afforded by Mr. O'Hare. To country and city merchants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equaled. Whoever wants to travel, whother with a small carpet-bag or a nammoth trunk, need go no further than to the His manufactory is a credit to Louisville, and should meet with extensive patronage. Hundreds of workmen are employed, and thousands of dollars weekly disbursed. As a matter of thome pride, and to subserve economy, pur-chasers will consult their best interests in pur-chasing of Mr. O'Hare.

UNBEALTHY BREAD .- In no article of food should more cautiousness be exercised than the "etaff of life"-bread.
